

Safe Pedestrian Area – Cllr Alwyn Pidgen

The photograph below shows the junction between Longmete Road and The Street and the small grassy island in the centre.

There is plenty of room for a remodeling of the existing junction by removing the current island. This will also allow KCC to create a safe hard standing area for bus passengers.

KCC can re-design the junction as and when needed at a cost of £1.5k, while construction costs will be £10-15k
