

## Village Gateway – north end – Cllr Alwyn Pidgen

The photograph below shows the gateway at the north end of the village. This is the view that drivers will get travelling southbound along Stourmouth Road towards the residential areas. The red surface contains a 30mph speed roundel adjacent to a newly relocated speed sign as part of the section 278 agreement. Dragon's teeth markings were placed on the road to attempt to slow people down prior to reaching the 30mph sign. However, its ability to encourage drivers to slow down before reaching the residential areas has still to be tested.
